

Würth Industry

Würth Industry of North America (WINA) is a division of The Würth Group, a \$11 billion global leader in fasteners and assembly technology, allowing us to provide our customers with:

- Over 90,000 line items
- Premier supplier base
- National and international market coverage
- Financial strength and stability
- State of the art warehousing, logistics, and information technology systems

More than just a nuts and bolts business, WINA does more than just meet your fastener needs. We also provide value added services to ensure you receive high quality parts delivered when you need them, where you need them, at the lowest overall cost.

Quality Control

WINA has regional quality labs that are ISO 9001 certified. In addition, two locations maintain a QS 9000 certification. Our FQA compliant labs eliminate final inspection for most end users. Our Quality Department can assist in answering questions related to:

- Fastener failure
- Fastener standards
- High service levels
- Platings and coatings
- Torque values

VMI Programs

With over 25 years of Vendor Managed Inventory (VMI) experience, WINA can create an individualized program that will provide you with:

- On-time delivery
- Product standardization
- Consolidated billing
- EDT and EFT services
- Elimination of stock-outs
- Reduced inventory
- Cost savings

Engineering Capabilities

WINA offers exceptional engineering services to optimize your operations.

- Application design
- Technical support
- Value analysis and engineering (VA/VE)
- Product and assembly process reviews
- Product consolidation reviews
- Fastener training
